Product Description

The Netis ST3108GD is an 8-port Gigabit RJ45 switch designed for stable and reliable network connections. Featuring a durable high-quality steel housing, Auto MDI/MDIX support, and plug-and-play setup, it ensures hassle-free installation. Equipped with 9 sapphire green LED indicators and energy-saving technology, this Gigabit switch delivers efficient, high-speed performance while reducing power consumption, making it perfect for home and small office networks.
