Longse CMSBFCV8RC 8MP Smart Hybrid Light IP Camera | Dual Light Dome CCTV with PoE & Built-in Mic

Price: Rs. 12,502

Attributes

Product Description

The Longse CMSBFCV8RC 8MP Smart Hybrid Light IP Camera delivers ultra-clear surveillance with advanced security performance for homes and businesses. Powered by a 1/2.7" Progressive Scan CMOS sensor and Fullhan SOC with HDR, this dual light network camera captures sharp 8MP video in all lighting conditions. The smart hybrid light system intelligently switches between IR and warm light for full-color night vision, while built-in mic and PoE support ensure easy installation and clear audio monitoring. With AI-based intrusion detection for human and vehicle shapes, durable metal housing, and wide-angle 2.8mm lens, this camera is an ideal solution for reliable outdoor and indoor CCTV security.
